Play to Kill

Primal Fear

If you like the jeopardy
And you have the guts
You think your life is boring
You say it drives you nutsIf this is the way
You think I've got a remedy
Your problems will be belong away
You'll go through agonyA boundless hyper energy
Will smash into your brain
There is no chance for you to stop
The force you can't restrainPlay to kill, play to kill
Can't you see that we play to kill?No chance for you to conquer
No chance for you to flee
If you've once been beaten by
This machineryThe only way for all of you
To live the whole thing through
Is fight the fight beside us
There's nothing else to doA boundless hyper energy
Will smash into your brain
There is no chance for you to stop
The force you can't restrainPlay to kill, play to kill
Can't you see that we play to kill?A boundless hyper energy
Will smash into your brain
There is no chance for you to stop
The force you can't restrainPlay to kill, play to kill
Play to kill, play to kill
Can't you see that we play?
Can't you see that we play to kill?Play to kill
