When I Need You

JJ

Baby, I'm waiting for you to come along
So where are you this time
When I need you?
Baby, I'm waking for you to let me know
'Cause I am breaking every rule for you to let you knowAnd people have been dreaming about you and me
Now it's plain to see what we mean to me
We're sleeping in a bed full of sorrow
We've been acting like there's no tomorrow
We have picked, stolen, and borrowed
everything they offered us
UsI don't know how
I don't know how
I don't know how these drinks keep coming by
They make me see you so bright
Just like tonightI wanne lie, but I don't know how
Oh no, boy, you hate to see me leave
But love to see me goSo people keep dreaming about you and me
Dream a little, dream of me
I don't know how, I don't know how, ...
'Cause I don't know how
These drinks keep coming by
Oh no boy
They make me see you so bright
Just like tonightI wanna lie, but I don't know how
Oh no boy, you hate to see me leave
But love to watch me goSlip off, get slip off (taco?)
When you call
If you go slow, slow
Then I go slow
