

Worrier King

Warren Zevon

I've got a bird that whistles
I've got a bird that sings
I've got a bird that I've got a bird I'm worried about that bird
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King Well. I'm hiding from the mailman
And I hate to hear the telephone ring
I'm hiding from the mailman
And I hate to hear the telephone Worried about the women
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King I've been up all night wondering what the mornings gonna bring
I've been up all night
Wondering what November's gonna bring Worried about my country
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King Worried about my bird
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King
