Release Me

Crossbreed

The war that's in your mind, you explained to me
Sounds like you're obsessed but certainly
Somewhere you will find a place to express your needs
You always insist that place is meYou're right, holy system is right
You're right, no one can stand all the lies
You're right, holy system is right
You're right, the wall's been broken downRelease me, release me, release me
The wall's been broken down
Release me, release me, release me
The wall's been brokenBefore you ever thought you could bury me
I turned off the lights so you can't see
A shadow in the dark that you can barely see
Surrounded by the dead that doesn't bleedYou're right, holy system is right
You're right, no one can stand all the lies
You're right, holy system is right
You're right, the wall's been broken downRelease me, release me, release me
The wall's been broken down
Release me, release me, release me
The wall's been brokenCircles form around me, I can't see
Staring eyes have brought me to my kneesYou're right, you're right
You're right, you're right
You're right, you're rightRelease me, release me, release me
The wall's been broken down
Release me, release me, release me
The wall's been brokenRelease me, release me, release me
The wall's been broken down
Release me, release me
Release me, release meRelease me, release me, release me
The wall's been broken down
Release me, release me, release me
The wall's been brokenRelease me, release me, release me
The wall's been broken
Release me, release me, release me
The wall's been broken downYou're right, you're right
You're right, you're right
You're right, you're right
