Once It Was Ours!

Moonspell

Vanishing act inside the weak
In need of you and all what's real
Spirited into our lost waysIn solitudes to follow
Across the land departed on sea
We will be living our last daysRemember!Once it was ours
We have waited forever
We are to blame
For once it was oursWe are a revolution strong inside the weak
The anguish of the all to be
Lost forever into your unique waysIn telling blood decisions stay
Keep the light strong for me!
My darkest hour ahead it laysRemember!Once it was ours
We have waited forever
We are to blame
For once it was oursIt's a resolution! Our destination shall be ours again
It's a resolution! And it's coming our way...Remember!All that you see
Could ever feel
Once it was final
Once it was all...Remember!Once it was ours
We have waited forever
We are to blame
For once it was oursRemember - We are living our lost daysOnce it was ours!
