

Caroline

Slowtide

Bellyachers find it hard not to agree
you're like an ever-growing source of energy
it's what attracts to simply everyone you meet
to bring you down is like a task that noone can complete

And in me aches the need to know
how you take the heart to show
that noone could prevent that you
find your way out of the blue

Hello Caroline, bet you're feelin fine today
cause you're looking gay, in a literal way
Hello Caroline, once you start to whine, a song
can make you sing along, and that's why you've got to sing along

Now there's one thing that is not easy to convey
you're like a 60s girl inside a modern period play
but here's the good side, for the people that you please
the love you bring spreads like an infectious disease
