

Biomod "Seed" (Chiasm Mix)

Chiasm

The soil disrupts the ground
The sea yet to be found
Created to awake
In light it finds a way
To clear the earth today
The brightness fascinates
You find my patience as renewed
And I am here left without a doubt
A system made to fall
And watch us take it up

Don't tell me it's a waste of time
To think the future's bright
The wind will follow through its course
If we apply some force

You find my patience as renewed
And I am here left without a doubt
A system made to fall
And watch us take it up

And I can't wait for all this time to end
But you have been my dearest friend
Alone awakened by the darkness that dispell
And as I sail upon the sky above
I face eternity with love
It will embrace me as
I wait it to the end

And I can't wait for all this time to end
But you have been my dearest friend
Alone awakened by the darkness that dispell

And I can't wait for all this time to end
But you have been my dearest friend

Alone awakened by the darkness that dispell

And as I sail upon the sky above
I face eternity with love
It will embrace me as
I wait it to the end

And I can't wait for all this time to end
But you have been my dearest friend
Alone awakened by the darkness that dispell
