

# Everlovin' Man

Jet

(Lynch/Lovett/Anderson/Humphreys/Clyne)

Bring it all back baby everything we did was wrong  
Leave it where we found it, oh baby please be gone  
Dreams are easy oh but baby understand  
It's so very hard for you to leave your everlovin' man  
Bring you everything, oh everything man should be oh baby  
My word is easy but I'll leave you in your misery  
My world is ended but baby understand  
It's so very hard for you to leave your everlovin' man  
I don't need your lovin' I don't want your lovin'  
I won't have your lovin' Oh baby no more

Bring it all back baby everything we did was wrong  
Leave it where we found it, oh baby please be gone  
Dreams are easy oh but baby understand  
It's so very hard for you to leave your everlovin' man  
Bring you everything, oh everything man should be oh baby  
Words are easy but I'll leave you in your misery  
It's so very hard for you to leave your everlovin' man  
I don't need your lovin' I don't want your lovin'  
I don't have your lovin' Oh baby no more
