

Just You, Just Blues

Charlie Musselwhite

Goodbye good love, get lost and don't come back.
Throw away my number and get back from my shat.
Take care be wear and get on down the road.
Well you ain't so a much i don't want you no more. Just you just blues, you got to leave this town.
Just you just blues, no more dogging around. So long, i believe you belong to another cat.
So grab you shoes and don't forget your hat.
So long, keep going you know i had enough.
Don't you slam my door and don't forget you stuff. Just you just blues, you got to leave this town
Just you just blues, no more dogging around.(x3)
