

# Traveling at the Speed of Light

## Joywave

I wanna hear about the savannas  
The river pads  
And all of the legends  
Wanna feel the wind in my shoulders  
Wanna touch the face of a five-foot boulder

Wanna feel the warmth of the summer  
Wanna know just why I love her  
I can just erase a whole number  
Lay your head to sleep, breath deeper while I

Burn it out  
Burn it out faster  
Take your time  
And make it up after  
Burn it out  
Burn it out faster  
Burn it out  
Cause I'm not giving up

One rotation leads to another  
Three trips 'round now all for your mother  
Make a five-year window seem a little closer  
Bring it on down, fly a lower  
Six times now, and seven's gettin' closer  
I ate my meals alone, I'm not over her  
And nine comes 'round, and so does ten  
You're my piece of heaven

Wanna feel the warmth of the summer  
Wanna know just why I love her  
I can just erase a whole number  
Lay your head to sleep, breath deeper while I

Burn it out  
Burn it out faster  
Take your time  
And make it up after  
Burn it out  
Burn it out faster

Burn it out  
Cause I'm not giving up

One rotation leads to another  
Three trips 'round now all for your mother  
Make a five-year window seem a little closer  
Bring it on down, fly a lower  
Six times now, and seven's gettin' closer  
I ate my meals alone, I'm not over her  
And nine comes 'round, and so does ten  
You're my piece of heaven

Take it slow  
Head to a place I know  
Let's reacquaint and show  
That something's gotta give now  
I don't know how long I've been alone  
Let's reacquaint and show  
That something's gotta give now [x2]

After all the time I've shed  
You appear  
So much wiser than before  
I see it in a strand of hair
