

Mount Fuji

YOKKO

Sunlight on my skin
Gives me warmth
In times like these
It's all I've ever wanted from life We are, we are, we are all here
To give hands and hearts
To not get lost
We are, we are, we are all here
To have dreams and thoughts
That we should never lose Sunlight on my hand
Gives me time
To think about myself
In times like these
It's all I've ever wanted from life The sunlight bursts my veins
Gives me peace
In times like these
It's all I've ever wanted from life We are, we are, we are all here
To give hands and hearts
To not get lost
We are, we are, we are all here
To have dreams and thoughts
That we should never lose
(ohohohoh)
To give hands and hearts
To not get lost
(ohohohoh)
To have dreams and thoughts
That we should never lose
(ohohohoh) I think about myself
In times like these It's all I've ever wanted
All I ever need from life
From me
