Palm Trees

Lowell

Looking at the window
I can't find something to realize
Waiting for a message for meBut,
You were always one step ahead
You were always one step ahead
You were always one step ahead, from meWaiting for the palm tree
Waiting for the palm treeBaby, are you good or..?
I don't know, I barely even know you
Maybe I'm a sucker for loveBut,
You were always one step ahead
You were always one step ahead
You were always one step ahead, from meWaiting for the palm tree
Waiting for the palm tree
Waiting for the palm treeSunshine on my good times
(I'll undo you)
Kiss my lips I'm golden
(Falling into you)
Your my little alibiWaiting for the palm treeSunshine on my good times
I'll undo you
Kiss my lips I'm golden
Falling into you
You're my little alibiWaiting for the palm tree
Waiting for the palm tree
Waiting for the palm tree
