

Never Stray Far Away

[Moya Brennan](#)

Never stray far away
Never stray far away
Do you hear someone calling?
Do you hear someone calling? Never stray far away
Never stray far away
Do you hear someone calling, calling? A thousand memories will play
And the sun will rise to greet another day
Somehow this emptiness won't stay
Somehow there's hope not far away Never stray far away
Never stray far away
Do you hear someone calling?
Do you hear someone calling? Never stray far away
Never stray far away
Do you hear someone calling, calling? We should not compromise our ways
And I'm hearing wild birds singing home today
Somewhere our secret lives are gray
Somewhere there's hope not far away Never stray far away
Never stray far away
Do you hear someone calling?
Do you hear someone calling? Never stray far away
Never stray far away
Do you hear someone calling, calling? Never stray far away
Never stray far away
Do you hear someone calling?
Do you hear someone calling? Never stray far away
Never stray far away
Do you hear someone calling, calling?
