

A Change

The Championship

[Verse 1] If it wasn't for my pain
Then I wouldn't know my strength

If it wasn't for my future

I won't be fightin here today

And of course, I know my way up

Cause I fell the same way down

What matters is what you do

When the troubles come around

Take a step now

Get up on your feet

Gotta be brave

No clouds above thee

Follow your heart

And then you'll see

There's always a way

Hold on tight

Tomorrow will bring

Every key to every locked dream

It ain't hard as it seems

[Chorus] Baby don't cry

Things are bout to change

Baby don't cry

Things are bout to change

And all the hurt and the tears

Will be just history

And all the doubts and the stress

Will be just history

And all the hurt and the tears

Will be just history

And all the doubts and the stress

Will be just history

[Verse 2] Your mind carries heavy weight

And your knees are kinda weak

You wanna run and fly away

But you hurt the wound is deep

You feel like it's time to give up

When your soul is cryin loud

Nothing lasts forever

You will find your way

Take a step now
Get up on your feet
Gotta be brave
No clouds above thee
Follow your heart
And then you'll see
There's always a way
Hold on tight
Tomorrow will bring
Every key to every locked dream
It ain't hard as it seems

[Chorus]Baby don't cry
Things are bout to change
Baby don't cry
Things are bout to change
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history

[Verse 3]I only wanna be a real man
I already got a real plan
I ain't gotta be rich
I ain't gotta have wealth
I just do the best I can
Cause the life of a child
Innocent's worth more
Than a ring and ya new jeans
Got love in my life
And that's all that I need
You believe and you succeed
And through the pain and the hard times
We push on with our head high
Each one reach one clothe one feed one
Do it right now, its time
Things about to change
Oh yes, we can
Things about to change
Yes yes we can
Things about to change
Oh yes, we can

Things about to change
Yes yes we can
Things about to change
Oh yes, we can
Things about to change
Yes yes we can
[Chorus]Baby don?t cry
Things are bout to change
Baby don?t cry
Things are bout to change
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history
And all the hurt and the tears
Will be just history
And all the doubts and the stress
Will be just history
