Sound of Angels

10StepsBack

Looking out over the edge now
I'm way over my head somehow
I'm trying to find something to sing about

It's finally over so I'm gonna leave here now
I've already tried to turn my life around
Then I hear the hurt people crying out

I just wanna let you know
You're not alone
Hope's calling out your name

Your life's not over
Stop inching closer
There's more to life than this

This strange emotion
Runs like the ocean
Far more than you can see
So hear me

I can't seem to find
Anything in my life
The memories of the past are tearing me up inside

They say they love me
But all you got is a body
They say you've got no soul
Oh, but you are a soul
I just wanna let you know

Your life's not over
Stop inching closer
There's more to life than this

This strange emotion
Runs like the ocean
Far more than you can see
So hear me

The sound of angels singing out
I can hear the celebration now

Your life's not over
Hope's getting closer
For all who need receive

Your life's not over
Hope's getting closer
There's more to life than this

This strange emotion
Runs like the ocean
Far more than you can see
Believe me

Believe me
