

Cult of Cool

The O.C. Supertones

It's just another lie to sell to me
But I'm not buying
To live the way they do on MTV
Yeah, you're trying Just a little too hard and we can see through
There's a guy in a suit and he's trying to tell you
What you should like and what you should do
Will you fall in with the world or will you say? We won't pay for a lie
Get away, right away
I want Christ, Christ alone
Christ to call me His own We won't play by your rules
Here is one you won't fool
I think it's dumb, I won't succumb
To the cult of cool
To the cult of cool
To the cult of cool To them you're just a number on a page
A target market
Try it out on someone your age
And hope you buy it You're trying too hard and we can see through
There's a guy in a suit and he's trying to tell you
What you should like and what you should do
Will you fall in with the world or will you say? We won't pay for a lie
Get away right away
I want Christ, Christ alone
Christ to call me His own We won't play by your rules
Here is one you won't fool
I think it's dumb, I won't succumb
To the cult of cool
To the cult of cool
To the cult of cool There is a decision to be made
Will you conform?
That is how the companies get paid
Or are you transformed? You pay somebody to poison your mind
Will you be a target marker or will you be a gold mine?
There's a brainwash store and they're waiting in line
Will you fall in with the world or will you say? We won't pay for a lie
Get away right away
I want Christ, Christ alone
Christ to call me His own We won't play by your rules
Here is one you won't fool

I think it's dumb, I won't succumb
To the cult of cool
To the cult of cool
To the cult of coolTo the cult of cool
To the cult of cool
