Pipe dream

Souleye

I'm all alone, show's over
Night crawler's crawlin' closer
Somewhere is temptation
Could it just be my imagination
Was it all just a dream
At the bottom of a glass
Then it's time to wake me up
All this too will pass
Chorus:
Call me up when you find out what life means
Doesn't hide in the fire of a smoke screen
Like a match burning fast in the cold breeze
Like a house made of glass in a pipe dream
Even so, it gets harder
Can't finish what you can't get started

Everywhere seems so broke down
Signs of life are happenin' anyhow
Should i just disappear
Behind a one way glass
Remain invisible
All this too must pass
(Chorus)
All in a pipe dream (2x)
Late at night, when I can't sleep
Listen now to the sound on the street
When dawn, dawn comes chasin'
Doin' money and the time I'm wastin'
(Chorus)
Like a match burning fast in the cold breeze
Like a house made of glass in a pipe cream
