She's So Fine

The Easybeats

She walks with a bell clock round her neck
So the hippies think she's in with time, time
Her hair glistens like robins on a deck
Branches attack me from her neck
She's so fine
She's so very very fine
The sun from a cloud sinks into her eyes
The rain from a tree sokes into her mind, mind
Morning sign sounds just like a lock
All these signs are always a stock
She' s so fine
She's so very very fine
When I veer I get so near
But so far far far away
Listen to me today
We united just beside a leaf
The ground was hard underneath, her her
She's so fine
