

# She's So Fine

## The Easybeats

She walks with a bell clock round her neck  
So the hippies think she's in with time, time  
Her hair glistens like robins on a deck  
Branches attack me from her neck  
She's so fine  
She's so very very fine  
The sun from a cloud sinks into her eyes  
The rain from a tree sokes into her mind, mind  
Morning sign sounds just like a lock  
All these signs are always a stock  
She' s so fine  
She's so very very fine  
When I veer I get so near  
But so far far far away  
Listen to me today  
We united just beside a leaf  
The ground was hard underneath, her her  
She's so fine
