

Westside

Athlete

All the energetic people they all sparkle as they're walking down the street
Can't see their faces but I've noticed they seem to have big hands the stage is set, is the glamor, who's got my
Etnies?

Now you know that I can see you and you know that it is easy
To see me something has been on my mind, something has struck me kind of odd, look out for quicksand, there
is high ground

Who wants this rock scene? We sing

Whenever you look you can see that everybody wants to be part of the rock scene
Whenever you look you can see that everybody wants to be part of the rock scene Now the time has come and
yeah the show it must stay strong

And are we all part of the latest craze or is this how we mend our ways

I can hear the taxi calling, telling me we haven't left yet.

As the lights go on we're out tonight somehow you seem to stand out

In a crowd you raise the tempo in the disco as you make this place your own

The stage is set, is the glamor I'm in this rock scene Whenever you look you can see that everybody wants to be
part of the rock scene

Whenever you look you can see that everybody wants to be part of the rock scene

Whenever you look you can see that everybody wants to be part of the rock scene

Whenever you look you can see that everybody wants to be part of the rock scene House on the rock
Surely it will last forever?

House on the rock

Don't you know it's now or never?

House on the rock

Surely it will last forever?

House on the rock Whenever you look you can see that everybody wants to be part of the rock scene

Whenever you look you can see that everybody wants to be part of the rock scene

Whenever you look you can see that everybody wants to be part of the rock scene

Whenever you look you can see that everybody wants to be part of the rock scene When when when when
whenever, rock scene

When when when when whenever, rock scene
