

Pungent Stench

Pungent Stench

rotting fetus in your womb
your own body is his tomb
mucus little brat
drowned in clothing blood
disgusting gastric juice
drops out from your mother's vagina
pungent stench of festering gore
your pussy is a viscous sore
worms in your entrails
pray upon the melted embryo
corroded brain and skin
your skin died for your sins
too many drugs in pregnancy
you killed your child but now it kills you
titanic waves of bestial stench
comes from your mouth it's the child's revenge
bursting boils, nauseous flood
malformation and yellow blood
now you can dig in your baby's guts
tear the corpse out and see what you've done
don't repeat this mistake, now you can get your punishment
he little brat will rip you still the end
