

Ricochet! (BT Remix)

Shiny Toy Guns

She's in your head Welcome back to where I'm gonna have you
Shell shock, fall back, anyone I see through
Watch your head spin like a mesocyclone
Bouncing off the walls, now there's nowhere to run Like a bullet meant to be shot
You're the target dead on the spot
When I focus I never miss
It starts with a kiss Let the sweat fall, find me in the back stall
Let it snow down, now we're gonna deck halls
I hit the bullseye making all the boys cry
I hit the main line breaking through the night sky Like a bullet meant to be shot
You're the target, dead on the spot
When I focus I never miss
It starts with a kiss Watch your head spin
