

# Angry Heart

## Black Sabbath

I still remember how it used to be  
I thought the only thing that mattered was me  
You always told me it was just insane  
To feel such joy, while others feel pain  
And there's no way to change this angry heart  
'Cause when love goes it will tear you apart  
And it's been this way since time began  
It's a desperate search for a promised land  
And the years slip by like so much sand  
So many people who are dying to live  
It tortures my heart they've got so much to give  
I never saw it as a battle before  
To win the fight, there has to be more  
And there's no way to change this angry heart  
'Cause all these fears will tear you apart  
And it's been this way since time began  
It's an endless journey, it's the fate of man  
To live each day and never understand  
Yes it's been this way since time began  
It's a desperate search for a master plan  
And the years slip by like water through your hands
