

Always Like This

Bombay Bicycle Club

Oh she can wait for what I can give she
Knows what I am but she won't believe me
Is it all ok?
Well I come off the lightest
I can't believe that it's always like this Like this (repeat) Kept it at bay as you kept your word
It's there on your mouth but it's not what I heard
If I follow the light that I deem the brightest
I won't believe it it's always like this I'm not whole
I'm not whole
Oh you waste it all
(repeat)
But I'm not whole Oh you can wait for what I can give you
Know what I am seen you know how I live
Try to look proud but you're not in the slightest
It's happening now and it's always been like this I'm not whole
I'm not whole
Oh you waste it all
(repeat)
But I'm not whole
