

You Never Do

The Wanted's

Fascinate, make me wait
Dream come true, but you never do
Hesitate, wake up late
Almost great, but you're out of place
Perfect dance, not enough
Follow through, but you never do
Signals are, breaking up
More bad news, but you had enough

Fall for you, superglue
What you do, but you never do
Balancing, everything
So unreal, but you never heal
Nothing new, tell the truth
Comfort you, but you never do
Fall apart, broken heart
Satisfied, but you never are
(I use you, to break my fall
It's true, but you never do) 4x
