

Everything I Know

2 Chainz

The streets done taught me everything I know
The streets done taught me everything I knowThe streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything (I know)With my back against the wall ain't no pressure
When the defence really on, ain't no test
Pull up real slow in a taxi
Gunshots turn 'em into athletes
I was hungry for a mil I got a half
Drove a couple couple cars up the mansion (Nah foreal at one time)
Smoked a whole seven sitting in the traffic
And niggas couldn't beat me if they practised
Used to use my safe for a mattress
Used to use my mattress for a safe
See I could count a hundred thousand backwards (99, 98, 97)
And I'm just tryna get it every day
They feigning for the trappers and the rappers
They feigning for the trappers and the rappers
They feigning for the trappers and the rappers
And now your mall on that, shawty what's happenin'The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything I know
The streets done taught me everything (I know)Everything I know
Used to hustle at the store
Used to get it with my bros
Used to bet on tenfold
Now I'm all around the coast
I be all up on a boat
I be smokin' on that gas
It might make them bitches choke
Old school with the rallies

Used to meet them up at rallies

So it's fuck your P

The streets taught me how to get it (get it)The streets done taught me everything I know

The streets done taught me everything I know

The streets done taught me everything I know

The streets done taught me everything I know

The streets done taught me everything I know

The streets done taught me everything I know

The streets done taught me everything I know

The streets done taught me everything (I know)
