

# One Day I'll Go Walking

## Deacon Blue

Water, tiny at first then bigger  
And it flowed right down from the highest hill  
And it grew and it joined the battling burn  
And it flowed right through to where we are now Standing beside a cool cool stream  
It's hard to imagine the great and terrible river you'll be  
Bringing life or rest or wonder or high high tide  
And in times like this, you bring me here And when the wind is blowing quick time  
For the waves to be dancing by  
And the moon is watching over  
The purple gloaming sky I'll go walking, yeah  
One day, I'll go walking Sometimes, I come down here  
And I don't know why  
It's like a garden or a room  
Dream that you keep on trying to find Leaves you feeling that maybe  
Maybe, there's a destination you've missed  
And all along the way you hope  
The reason that you came was blessing  
Some holy kiss And when the wind is blowing quick time  
For the waves to be dancing by  
And the moon is watching over  
The purple gloaming sky I'll go walking, yeah  
One day, I'll go walking Let me ask you a question  
Give me the, just give me  
Just give me five Did you see the picture or did you read the book?  
I mean did you really go there or were you only took?  
I said, were you believing or were you just shook?  
Well, I went inside and I, it was dark, there I stood I stared out long and fast till my eyes were hurting  
And I saw the hands on the savior and all his bloody feet  
And his hair and his clothes were all matted and torn  
Were they only dirty from the beating of the soldiers  
Or just, just from walking, walking, walking? And when the wind is blowing quick time  
For the waves to be dancing by  
And the moon is watching over  
The purple gloaming sky I'll go walking, yeah  
One day, I'll go walking  
I said, one day, I'll go walking  
I said, one day, I'll go walking  
I'll go, one day, I'll go walking One day, one day, one day  
One day, one day, I'll walk right back

I said, I'll walk right back  
I just, walking back home I gotta find it, gotta find it  
Gotta find it  
[Incomprehensible] in your heart Until I find my way  
Until I find my way  
Until I find my way  
Until I find my way I'll be walking, I'll be walking  
I'll be walking, walking  
I'll be walking, I'll be walking  
Walking, walking
