

Honor Thy Father

Advisory - the following lyrics contain explicit language:

We're taught unconditional love
That blood is thicker than water
That a parent's world would revolve
Always around their son or their daughter
You pretended I was your own
And even believed that you loved me
But were always threatened by some
Invisible blood line that only you could see
You took advantage of an outreached hand
And twisted it to meet your every need
Gimme time to re-charge my batteries
I'll see her when she's older and I'll bounce her on my knee
Well listen to me you ungrateful fool
Her comes a dose of reality
You'll go to your grave a sad and lonely man
The door is now closed on your pathetic little plan
On and on and on and on it goes
It's so easy to run away with nothing in tow
How can you ever sleep a wink at night
Pretending that everything is alright
And have the nerve to blame this mess on me
Never in my life have I seen someone
So ignorant to the damage she has done
You're the rotted root in the family tree, yeah
I tried your 4 bill therapy
I tried to make amends
But nothing could lure you out of your selfish shell again
Expecting everyone to bow and kiss your feet
Don't you see respect is not a one way street
Blaming everyone for all that you've done wrong
I'll get my peace of mind when you hear this song
On and on and on and on it goes
And with every passing day true colors show
How can you ever sleep a wink at night
Pretending that everything is alright
And have the balls to blame this mess on me
Never in my life have I seen someone
Oblivious to the damage she has done
You're the rotted root in the family tree, yeah
Watch where you walk
Don't you dare cross the crooked step
Watch the way you talk
Don't cross the crooked step
On and on and on and on it goes
Chauvinistic, heartless, selfish, cold
How can you ever sleep a wink at night

Pretending that everything is alright
And have the balls to blame this shit on me
Never in my life have I seen someone
So fucking blind to the damage she has done
You're the rotted root in the family tree, yeah
