Burned out and hollow
Always open up swallow
In one out the other
Forever duck and cover Erase now, turn back the clock
Put an end to never ending suck
Sever through the other side
M.i.a., that's ok
Goodbye day, hello night
Welcome to the afterlife
Ride the rail gagged and tethered
Time has come to shift the pace
Putting on a dead man's face Erase one's self, reinvent the wheel
Astride the guillotine
Swilling gasoline
Out of mind, out of sight
M.i.a., that's ok
Wipe the blade, start over a new slate
Welcome to the afterlife Countless bones in the closet
Useless cog in a machine
Shameless legacy of fuck ups
Brainless shadow of what could have been
Erase now, turn back the clock
Put an end to never ending suck
Goodbye day, hello night
Out of mind, out of sight
M.i.a., that's ok
Welcome to the afterlife
