Bandstand In the Sky

Pete Yorn

Advisory - the following lyrics contain explicit language:

So come with me to a place that we don't know
If you need some inspiration before we go, just know
It's the way I have fallen in with you
Come with me, I just wanna say hello
It's the way I have fallen in with youOn the way, we can wash off in the stream
So come with me to a river I have seen
Time is waiting for the lightning to arrive
You can tell that's the way I'll survive
You can take my life but I'll never dieDriving around, nothing to do
We just made a bad decision, that's alright
So here we are now, a couple of fools
You can tell that's the way I'll survive
You can take my life, but I'll never dieLooking for the bandstand in the sky
