Naked

Electrasy

I used to think that loneliness was something only I did best
Now I guess I've got to think again
Our energies collide inside like two demented butterflies
Fluttering and fighting on the windI've got to go again
Because I ain't got second skinBecause I'm naked and you skin me to the bone
Because I'm naked I'm all fucked up and all alone
But I'm naked no one hears me when I call
Or stands near me when I fall because I'm nakedI want to go where I fit in, somewhere I don't think I've been
I guess I'll only find it when I die
My minds a haven where I rest, I haven't time to brave distress
I guess that's why it's better when I lieBecause I'm naked and you skin me to the bone
Because I'm naked I'm all fucked up and all alone
But I'm naked no one hears me when I call
Or stands near me when I fall because I'm nakedGive me some love I don't know what I'm doing
Give me some love I don't know what I'm doing
Tell me some love I don't know where I'm goingGive me some love I don't know what I'm doing
Give me some love I don't know what I'm doing
Tell me some love I don't know where I'm goingBecause I'm naked and you skin me to the bone
Because I'm naked I'm all fucked up and all alone
But I'm naked no one hears me when I call
Or stands near me when I fall because I'm nakedBecause I'm naked and you skin me to the bone
Because I'm naked I'm all fucked up and all alone
But I'm naked no one hears me when I call
Or stands near me when I fall because I'm naked
