

Patricia

Flashlight Brown

What a day what a cold and unforgiving grey
Won't give me a chance Cast a chill, she was cold as ice and dressed to kill
Froze me with a glance So now do you recall the twist and crawl and all the games? Patricia where have you
been?
Chilling with method and jamming with queen
Patricia what's in a name?
Tell me some lies and I'll slide you the same What a trip what a crazy, useless dirty rip
It's out of control Led by a mighty roar
Here comes the firestorm
I've seen it all before so I'm gone So move within your trance and safety dance and lose your mind Patricia
where have you been?
Over the bird's nest in life's final scene
Patricia what's in a name?
Godspeed the progress you're finally insane It's only magic
