From Autumn To Ashes

Always a spectacle it's a public show
Unimpressed so it's time that I let you go
Reputations from these antics
I may not be pure but I'm not all that toxicNow I'm checking out
And enlisting for stable living
So let's drop the act
I've found something that's more appealingAll this dependence on modern machinery
Come for the week and you'll stay for the scenery
Tear down the building, bludgeon the architect
[Incomprehensible] biased opinions from outdated intellectIt's a spectacle, it's a public show
Unimpressed so it's time that I let you go
Reputations from these antics
I may not be pure but I'm not all that toxicIf I wanted to make a comeback
Would kids receive me?
Unemployment I've been ruined
By young hands clappingSailing
And we keep
Sailing
With a fear
Of failingListen while they say your name
We hang our heads and take the blame
A dagger mouth is in control
These chemicals will take your soulSailing
And we keep
Sailing
With a fear
Of failing
[Incomprehensible]
