Odyssey

David Harks

I'm on the street low
Taking in the heat
Nowhere is that I know
She is laying down the sleeves
Playing out a forty five
Earn it of my mind
Has down he shut my eyes
There it goesCHORUS
We are (?) from the deep, not a freak of the night
Take my hand, give me up, from the darken to the light
She says "Ohhh, calling me to come tonight"
You call "Calling me to close my eyes"You are the out of sea
That's laying now in front of me
And if we turn the coach, tonight
Were we gonna be
If you want love, inside
Darling just close your eyesCHORUS
We are (?) from the deep, not a freak of the night
Take my hand, give me up, from the darken to the light
She says "Ohhh, calling me to come tonight"
You call "Calling me to close my eyes"Call, calling me to come tonight
You call "Calling me to close my eyes"Call, calling me to come tonight
Call, calling me to come tonight
