Horn Of Betrayal

DevilDriver

What the fuck do you want from me?
It's so damn plain to see that you're not grateful
Silence takes courage
No scars, no truth but the wounds tell the story
Of what will be done for honor and glorySilence is deafening
Does the end justify the means?
In all honesty, how do you sleep?Silence takes courage
The horn of betrayal
Sounds loudly for the fallen
While mine eyes are worlds awayWatch cowards as they bend [Incomprehensible]
Scratch a liar, find a thief
Inside is where the demon dwells
So I bite my tongue and when it comes to youSilence takes courage
Your heart needs amputation
Crying the get-lost blues, fuck youSilence is deafening
The horn of betrayal
Sounds loudly for the fallen
While mine eyes are worlds awayWatch cowards as they bend [Incomprehensible]
Scratch a liar, find a thief
Through the lies and the blasphemy
You are fucking dead to me
You are dead to meThis de los muerte, this day of the dead
It turns for me celebration instead
Skull and bones, walking away from the throne
To seek another kingdom, another kingdom
Another kingdom, another kingdomYour selfish lies
Your selfish waves of sorrow washed over me
Your selfish lies, like a sea of new memories, lies
