Deadlock

Stealing Sheep

Who's making decisions for you in your life?
The engine's turning round but something always holds you down
Finally you look within and see yourself looking back
When will you get a grip
and take hold of yourselfIt's all that your seeing
It's all that your feeling
It's all that your being
Just look within
Night after night, day after day
It's a deadlock situationWhen you're on a roll, roll back
Take a back seat from me
And you'll see the wood for the trees
Finally you look within and see yourself looking back
When will you get a grip
and take hold of yourselfIt's all that your seeing
It's all that your feeling
It's all that your being
Just look within
Night after night, day after day
It's a deadlock situationYou don't need any old reason
To lift off high
Let go of any old feeling
Leave them behindIt's all that your seeing
It's all that your feeling
It's all that your being
Just look within
Night after night, day after day
It's a deadlock situationIt's all that your seeing
It's all that your feeling
Just look within
look within
look within
look within
look within (listen to yourself and...)
look withinNight after night, day after day
It's deadlock situation
It's all that your seeing
It's all that your feeling
Just look within

look within
look within
look within
look within (listen to yourself and...)
look within
