

# Cherry Blue Skies

**Robin Thicke**

White man's killin' the black man  
Black mans chasing the red  
War in these streets  
No talkin' bout peaceThe dog's off the leash, under pressure  
All of this violence  
And hate crime is rising  
The world ain't the same as it wasAAh  
But its never too late to try  
To get on the same side  
Get on the same sideIt's cherry Blue skies  
Where there's Cherry blue skies  
Everything's a struggle  
But freedoms worth a fightAnd love is sitll the consuier at all times  
Your friends and lovers  
Your sisters and brothers  
All love the same from the moonBut its never too late to try  
To get on the same side  
Get on the same side  
It's cherry blue skies  
Where there's cherry blue skiesIt's never gonna be to late to try  
A place where there's hope  
A place where there's peace  
It's never to late to tryFor the cherry blue skies
