Fearless

[Colbie Caillat](#)

If that's the way you love you've got to learn so much
If that's the way you say goodbye
Then this is how it ends and I'm alright with it
You're never gonna see me cry 'cause I've cried
So go on, go on and break my heart
I'll be okay, there's nothing you can do to me
That's ever gonna bury me
So go on, go on and leave, my love
Out on the street, I'm fearless
Better believe I'm fearless, fearless
If this is how it hurts it couldn't get much worse
If this is how it feels to fall
Then that's the way it is, we live with what we miss
We learn to build another wall till it falls
So go on, go on and break my heart
I'll be okay, there's nothing you can do to me
That's ever gonna bury me
So go on, go on and leave, my love
Out on the street, I'm fearless
Better believe I'm fearless, fearless

If it's between love and losing
And to never have known the feeling, I'd still side with love
And if I end up lonely at least I will be there knowing I believe in love
Go on, go on and break my heart
I'll be okay, I'm fearless
Better believe I'm fearless, fearless
Go on, go on and break my heart
I'll be okay, there's nothing you can do to me
That's ever gonna bury me
So go on, go on and leave, my love
Out on the street, I'm fearless
Better believe I'm fearless, fearless
I'm fearless
So go on and leave, my love
Go on and leave, my love
Go on and leave, my love
Better believe I'm fearless, fearless
Fearless, fearless
