Sad Girl

The Intruders

Sad girl
You look so sad
Did he break your heart?
Gee, that's to bad
I guess now you see oh
How love can be
Sad girl
Forget that guy
Come on let's smile now
Please won't you try
Get a hold of yourself
Come on and find you someone else (Open up your heart)
Open up your girl (Open up your heart)
We can make a brand new start (Open up your heart)
Please don't cry
Just go out and find yourself another guy
Sad girl
Hold your head up high
Things are gonna change I know
As time goes by
Because that's the way it goes
Everybody knows (Sad girl)
Somebody's somebody's fool (Sad girl)
And your no exception to the rule (Sad girl)
Your day's gonna come, my love (Sad girl)
