

Maintain the Pain

[Miranda Lambert](#)

I put a bullet in my radio
Something just hit me funny I don't know
Just pulled the trigger going down the road You slammed the door and knocked me off the wire
Been walking lines and you've been burning tires
Slow and uneasy ain't that what you like It's insane
It's in vain
You stay to maintain the pain I hear your name and man it burns a hole
I swear I hate you but I can't let go
The kind of damage that you can't console It's all in vain
It's all insane
I swear you'll stay
I swear you'll stay to maintain the pain It's all in vain (I hear your name and man it burns a hole)
It's all insane (I swear I hate you but I can't let go)
I swear you'll stay (The kind of damage that you can't console)
I swear you'll stay to maintain the pain
Maintain the pain
