

Clementine

Babyshambles

My darling Clementine, you know I love you
My darling Clementine, you know I do
I bless and curse the day I found you
I wonder why
I got lost in the wonderland around you
Sitting through the city in a yellow old van with you
She took my love, what kind of fool am I

But you're always welcome here
I keep love handy, I keep it near
And I take note of all of your witty reposts
And I follow with the famous quotes and
If I say I care, I really mean it

She's got the money, and she
She's moving on
She's thinking on
She's thinking on all the good advice
Because there's always good advice

The man with the golden arm rarely deals a joker
But he kept two aside, just for you
He burnt your fingers in the fire
