

Walk Away

Plumb

I didn't call you
'Cause you would make a fuss
So I wrote it in a song
For you You're no longer
Where I am inside
We're too different
Me and you You can go your own way
And I'll go mine
You can take your chances
And I'll take mine It isn't easy
To look you in the face
'Cause all you speak of
Is yourself, you Don't represent me
If makes me cringe inside
Can you just forget
Where I live Can't find any reason
For you and I to stay
Can't find any reason
Not to walk away Just walk away
