

Angel Fall

Amy Steele

I live in a free world,
Feel like I'm entitled to at least 3 girls
But who knows, one of y'all could be my personal slave
I don't mean for the cleaning
I mean change my lifestyle and chase away the demons
Spray her with Rose, show her she ain't dreaming
She shine brighter than the moon, I'ma call her Venus
I made me Serena the way she look in them...
Let me get that bbm, you ain't got a man yet
That's the type of girl I like, showing off the pearly whites
Watch basketball wise man, she call it the early night
Yeah, it's like she fell from the sky
She ain't got wings but I swear that girl fly
He said, homie you're my heart,
So I'm aiming for your heart
He said everything you do is making me fall in love with you
And I said boy I don't know why
I'm just myself enough ...try
Promise this isn't lie, boy don't take me up so high
And let me fall
Cause if you let me fall alone
I'll write your name in the sky
And let the whole world know why
It's your fault
Don't let and angel fall alone
Can't let an angel fall alone
He said ...down the guard,
You don't know how sake you are
I will take her off your heart
You'll never be in the dark
And I said boy you never know
Cause I've heard this all before
You be there now, disappear later
Nowhere to be found, do me a favor please Don't tell me what you want me to hear
Tell me the truth
Will you be here with me
Would you let me fall?
Cause if you let me fall alone
I'll write your name in the sky

And let the whole world know why
It's your fault
Don't let an angel fall alone
Can't let an angel fall alone Whoa, don't let me fall alone
Oh yeah, I know what I ...
Don't wanna end up hurt
Boy you can build my hopes up high
Let me fall Cause if you let me fall alone
I'll write your name in the sky
And let the whole world know why
It's your fault
Don't let an angel fall alone
Can't let an angel fall alone.
