

I Hate The Homecoming Queen

Emily Osment

Little short skirt
With a big attitude
She wants to be a model
Wants to be on the tube, yeah
It's one thing or another
She's a trouble, trouble
Watch out if you're near
She can bring you to tears
She's got two boyfriends
And three wannabes
They follow her around
Like she's Aphrodite
Yeah, she's number one rated
But she's already jaded
And she's following the trends
In her Mercedes Benz
Everyone wants to know her name
Walking down the hall she's every guys dream
I hate the homecoming queen
I'm pretty damn sure that she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen tonight, that's right
Non fat, sugar free
Mochachinies, she says
"Give it to me now
You can keep the receipts"
Drinking one after the other
She's a trouble, trouble
Tossing back her hair
And she just don't care
Everyone wants to play her game
Walking down the street she's every guys dream
I hate the homecoming queen
I'm pretty damn sure that she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen tonight, that's right
She gets everything she asks for
But she's some how always wanting more
Little short skirt

With a big attitude
She wants to be a model
Wants to be on the tube, yeah
It's one thing or another
She's trouble, trouble
Watch out if you're near
She can bring you to tears
I hate the homecoming queen
I'm pretty damn sure that she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen
I hate the homecoming queen
I'm pretty damn sure that she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen tonight, that's right
Yeah, yeah
