Ostracized

Grip Inc.

Legions, upon legions
Roam the roads to nowhere
Street wise ragged with rage
Fucked by society, left outside
The systems cold embrace
Insane, Unsafe, Labelled
Rough warrior, veteran
Defender of nations, savage scars unable to heal
Mental derelict, refused
Admission, tagged the wretched
Of this land
Just another hard luck story
Just another day
Just another twisted manic
Just another throw away
Just another beggar begging
Get out the way
Straight talk falls on the deaf ears
Go ask the man under the bridge
He is the man under the bridge
He has no place for his head to lay
He is the man under the bridge
Left out, locked out, cast out, rejected
Just another hard luck story
Just another day
Just another twisted manic
Just another throw away
Just another beggar begging
Get out the way
Straight talk falls on the deaf ears
Go ask the man under the bridge
He is the man under the bridge
He has no place for his head to lay
He is the man under the bridgeOstracized
