

# Secret

Natasha Thomas

When I see you, I see you naked  
When you're near me  
The tension's hard to bear  
Infatuated, no doubt about it  
Think there might  
Be something in the air  
So we got this situation  
Let's fall into temptation  
Are you with it? Do you wanna hit it?  
Baby, if you wanna play it  
Then let me hear you say it  
Don't repeat it  
We gotta keep it secret  
If you wanna taste  
Don't talk about it  
Keep it on the low  
Just hush your mouth  
Don't scream and shout it  
Get into the flow, nobody has to know  
No, no, no, no  
I wanna touch you, it's so frustrating  
Wanna hold you and never let you go  
When our eyes meet I'm intoxicated  
I can feel my body overflow  
Baby, baby  
Is there something there for me?  
Baby, won't you come and rescue me?  
This is something only we should share
