Tendencies

The Readymen

You know it's Johnny 3
When you watch that body fall
When you fuck with J3T
He's like fuck it, kill 'em all
Ain't nobody, bad boy
We'll feed you to their fucking dogs
I'll keep on playing saint
You keep begging me to stop
I ain't a good shot, baby
But I'm on a roll
You better get down, lady
Someone's turning cold
Now it's time to meet your maker
Hear the tolling of the bell
Fucking kill you again
When I see you in hell
Know it's time to meet your maker
Hear the tolling of the bell
Fucking kill you again
When I see you in hell
Shut your eyes, let darkness lead the fight
Say goodnight
The rest will watch their future die buried alive
Say goodnight
It's time to lay down the dead, the dead come alive
We wear their flag for the rest of our lives
So shut your eyes, let darkness lead the fight
Say goodnight, say goodnight
You know it's hard to breathe
With a knife up to your throat
And it's impossible to see
Down the barrel of smoke
And I'm just starting to choke
You hope it's all in your mind
It's time to hit the deck like
It's a fucking drive-by
It ain't possible to manage
All the carnage and the damage
And an animal like me

Can use it all to my advantage
You're the first you hit the floor
'Cause you know that we stay lit
We're kicking in your door
'Cause we ain't nothing to fuck with
You're the first to hit the floor
'Cause you know that we stay lit
We're kicking in your door
'Cause we ain't nothing to fuck with
Shut your eyes, let darkness lead the fight
Say goodnight
The rest will watch their future die buried alive
Say goodnight
It's time to lay down the dead, the dead come alive
We wear their flag for the rest of our lives
So shut your eyes, let darkness lead the fight
Say goodnight, say goodnight
There's a black flag hanging over this town
Get down, get down
There's a black flag hanging over this town
Get down, get down
There's a black flag hanging over this town
Get down, get down
There's a black flag hanging over this town
Get down, get down
In a land of the weak
We'll put you to sleep
Put you to sleep, yeah
Put you to sleep
Look to the sky
As you beg for your life
Beg for your life, yeah
Beg for your life
Shut your eyes, let darkness lead the fight
Say goodnight
The rest will watch their future die buried alive
Say goodnight
It's time to lay down the dead, the dead come alive
We wear their flag for the rest of our lives
So shut your eyes, let darkness lead the fight
Say goodnight, say goodnight
