Open Up

Leon Power

Well I have got to
Tell you what to do
And all my movements
Are based round showing you
But I've been alone
And I've been on my own
Do you wanna know
What I wanna know
If you the one who
Can handle all the truth
Is it you

Well if I try to open up
No please don't run away
I'm closing up
But I got that on wait
And I'll start
I know I've made mistakes
But I suffer every day

We try to hold down
And up our every move
And all my movements
Are based round showing you
Late late late late lately
I've been trying to save me
But I need
Something to console me
Someone who can see the things I see

Well if I try to open up
No please don't run away
I'm closing up
But I got that on wait
And I'll start
I know I've made mistakes
But I suffer every day

Open up
Open up

And I'll start
Open up

Open up
No please don't run away
I'm closing up
But I got that on wait
And I'll start
I know I've made mistakes
But I suffer every day

Open up...
