Holding On

Judy Torres

I've been trying so hard just to understand
That you've gone away and left me here all alone
And now I'm hoping my feelings will stay the same
What we feel will never die
We'll keep this love alive
The distance won't get in the wayChorus:
Holding on to what we had
Hoping that this love will last forever
Holding on to memories
Hoping someday we'll be togetherEach day seems longer each time that I think of you
Dreams are all I have when memories fade away
So now I'm hoping you'll find your way back to me
Maybe we can try again
Don't let this feeling end
Together is how it should beChorus (1x)So now I'm hoping my feeling will stay the same
What we feel will never die
We'll keep this love alive
The distance won't get in the wayChorus (2x)
