

Naked in the City Again

Hot Hot Heat

Says she's got it all.
I don't wanna be the one to tell her that she don't.
Late night, in a lonely city...
So hard, she tries to look pretty.
Boys don't even notice her though.
She's in need of attention so...
Lost and naked in the city again.
Intoxicated by a quarter to ten.
Lost and naked in the city again.
Begging for a piece of their attention.
